ABOUT ME

I am a multifaceted designer, trained in interiors and evolved into service and strategy, with a fascination for the theoretical foundations of the design practice and the methodologies behind it. I enjoy exploring the world and its people through meaningful research, to create consistent designerly outcomes, that merge aesthetics and functionality, with human, social and political impact.

DESIGN SKILLS

User research
Trend research
Survey design
Data analysis
Concept development
User journey
Digital prototyping
Storytelling

SOFTWARE

Figma
Adobe Suite
AutoCAD, Revit, Dialux
Microsoft Office
IBM SPSS Statistics
Qualtrics

LANGUAGES

Italian, *native speaker*
English, *C1 proficiency*
Dutch, *A1 proficiency*

WORK EXPERIENCE

Design Intern *nov 2025 - feb 2026*

@[Mijksenaar](#), Amsterdam, Netherlands

I worked on the analysis and strategy phase of various wayfinding projects, with occasional contributions to graphics and sign layout.

- strategy and concept for airport LED boards
- manual of airport wayfinding system
- inventory of metro station system
- museum sign design
- update hospital sign layout

University Tutor *2024*

@Private, Milan, Italy

Peer-to-peer lessons.

- teaching of BIM and professional software for 3D modelling and lighting design

VOLUNTEERING

Exhibition guide *apr 2024*

@[Mu.D](#), Milan, Italy

Cultural event organised by university students in Milan.

- guiding visitors and exhibition explanation
- public speaking

Graphics installer *aug 2022, aug 2024*

@[Meeting Rimini](#), Rimini, Italy

Annual fair in Rimini, with exhibitions, conferences, and international guests.

- setting up of exhibition and graphic panels, signage boards, and wayfinding systems

EDUCATION

Msc Degree in Strategic Product Design *sep 2024 - aug 2026*

@TUDelft, Delft, Netherlands

In Delft, I broadened the range of challenges that design can address. I explored UX and service design, while developing new research skills. In my thesis, I adopted a critical stance towards the AI infrastructure and its alternatives.

- trend research
- service blueprinting
- roadmapping
- creative coding

Bsc Degree in Interior Design *sep 2021 - jul 2024*

@PoliMi, Milan, Italy

At Politecnico, I built strong design skills and creative thinking while delivering solid concepts and interior projects that served local communities.

- spatial modelling
- interior rendering
- technical drawing
